

HOW IT ALL BEGAN

Fabrik Force was created following the success of Fabrik&Co's branch in Vietnam, a parent company to Fabrik Force. It was never easy at Fabrik&Co to find a workforce that was affordable and qualified as a way to reduce operational costs for the company.

With this problem in mind, we set out on a mission to find a way to reduce payroll burdens while maintaining quality. Vietnam is the destination we came to, and it is one of the most sought-after countries by international organizations for opportunities and talents. Here you will find opportunists who are not only skilled but also young and enthusiastic.

HUMAN RESOURCES ISN'T A THING WE DO. IT'S THE THING THAT RUNS OUR BUSINESS

Within two years, the Vietnamese team became integral to Fabrik&Co's success, starting with key hires like

- Thái in Graphic Design Leader
- An in Order Processing
- Uyên in Accounting Leader

From just three team members, the Vietnam branch has grown to nine and continues to expand.

With great achievements, we are proud of our Recruitment personnel and see great opportunities to develop our Recruitment expertise. That's why we created Fabrik Force to leverage businesses by hiring the best-qualified overseas employees.

Our service ensures that your business will get the right candidates. We will also provide office space for your employees and closely monitor your employees' progress based on your criteria.

Fabrik Force – Hit the target, hire the best, empower success!
